Introducing the Zoom R12 MultiTrak

PORTABLE MULTI TRACK RECORDER FOR MUSICIANS

The R12 MultiTrak is Zoom's portable project studio for recording & editing music tracks. Built on the new features introduced with the R20, the R12 provides the very same smartphone-friendly experience offered by the onboard Touchscreen Color LCD and it is fully integrated with a multi-channel mixer board and transport controls. In addition, the R12 has the ability of play out sequences (playlist) for live performance with backing tracks.

Main Features

- 2-Input (Combo Jacks with Phantom Power) / 8-Tracks Recorder
- Touchscreen Color LCD (2.4 inch) for full operations
- 8-Channel Mixer fader board with Effect Send + Master
- Click routing (Phones / Output) on panel for use during live performance
- 2-in/4-out USB Audio I/F and MIDI Host function for connection of MIDI Keyboard
- Loop-based Drums patterns (150) for building rhythm tracks (same as R20)
- Onboard 8-voice FM music synthesizer (same as R20)
- Built-in Multi-Effects Processor - compatible with Guitar Lab software

The market for home musicians who wish to record their own favorite music tracks remain strong. New and improved features offered by Zoom R12 MultiTrak is of great appeal to hobbyists as well as professionals who can take advantage from portability and ease of operation.
